1 Turn Off Water Supply • Cierre el suministro de agua • Couper l'alimentation en eau

Locate water supply inlets and shut off the water supply valves. These are usually found under the sink or near the water meter. If you are replacing an existing faucet, remove the old faucet from the sink and clean the sink surface thoroughly.

Ubique las entradas del suministro de agua y cierre las válvulas de suministro de agua. Generalmente se encuentran debajo del fregadero o cerca del medidor de agua. Si se trata de un reemplazo de grifo, quite el grifo viejo y limpie completamente la superficie del fregadero.

Repérer les arrivées d'eau et fermer leurs robinets. Ces robinets se trouvent généralement sous le lavabo ou à côté du compteur d'eau. En cas de remplacement d'un robinet existant, le déposer du lavabo et nettoyer soigneusement la surface de ce dernier.

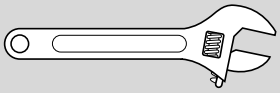
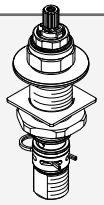
2 Prepare & Install Valve Bodies

Prepare e instale los cuerpos de la válvula

Préparez et installez les vannes



Adjustable Wrench
Llave ajustable
Clé réglable

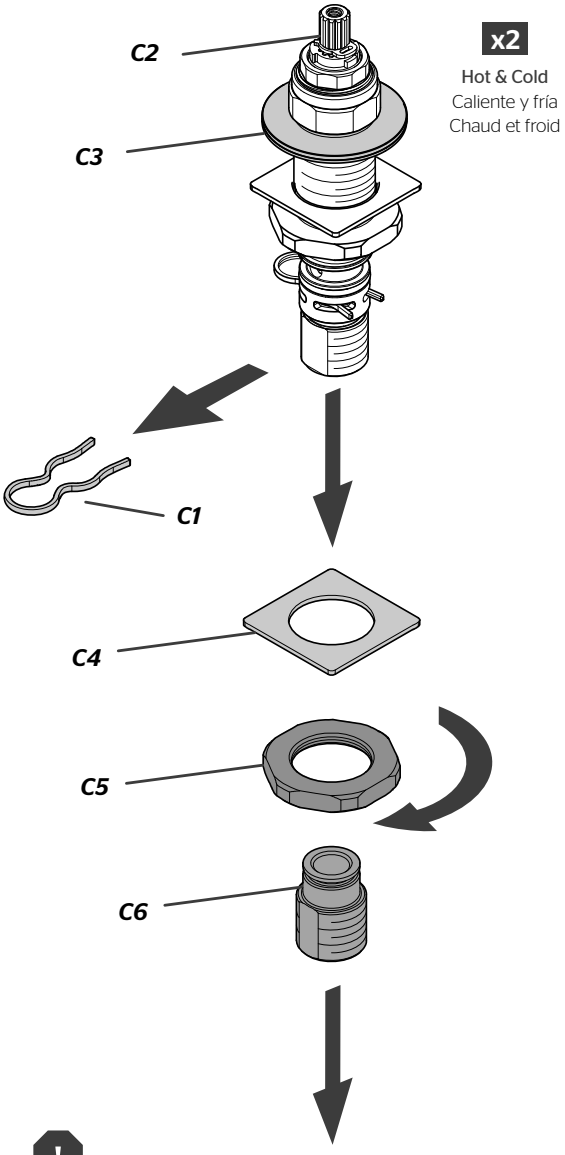


C (x2)

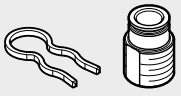
2A Disassemble Valves

Desensamble las válvulas

Démontez les valves



! Save for Step 5.
Reserve para el paso 5.
Conservez pour l'étape 5.



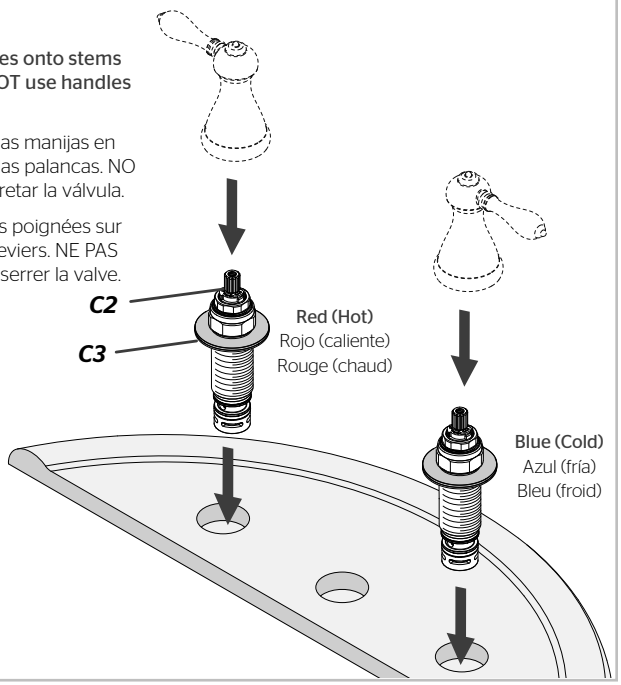
C1 (x2) *C6 (x2)*

2B

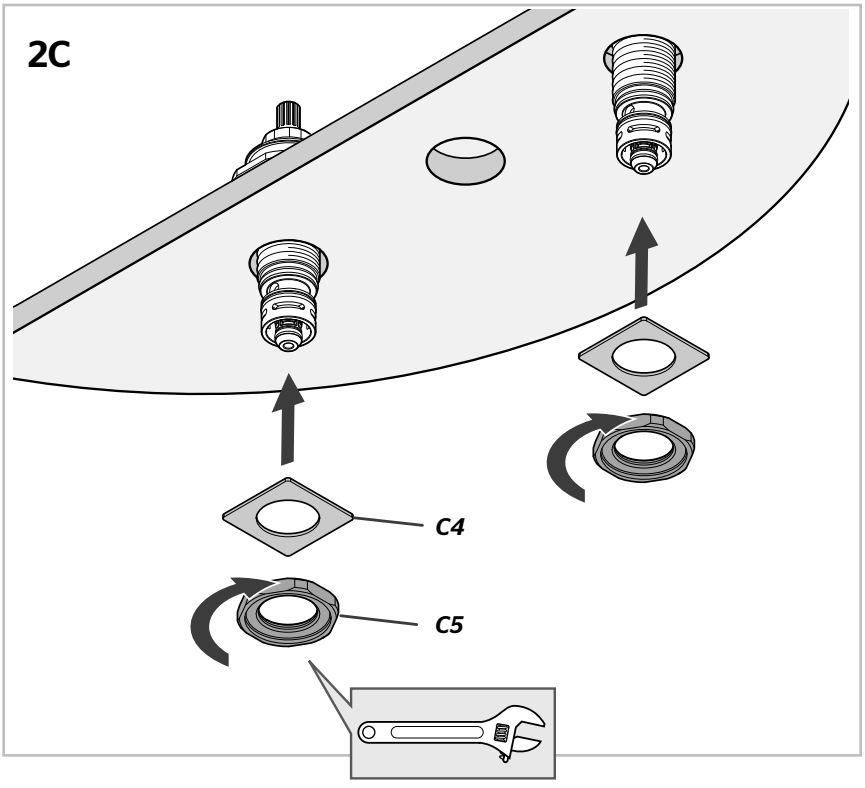
Temporarily place handles onto stems to align the levers. DO NOT use handles to tighten valve.

Coloque temporalmente las manijas en los vástagos para alinear las palancas. NO utilice las manijas para apretar la válvula.

Placer temporairement les poignées sur les tiges pour aligner les leviers. NE PAS utiliser les poignées pour serrer la valve.



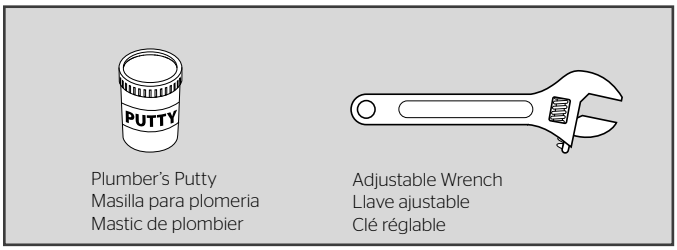
2C

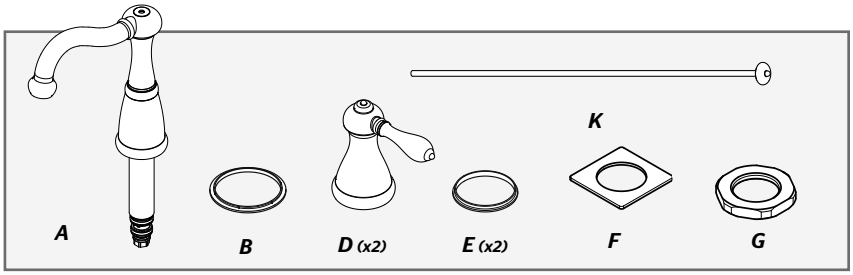


3 Install Handles & Spout

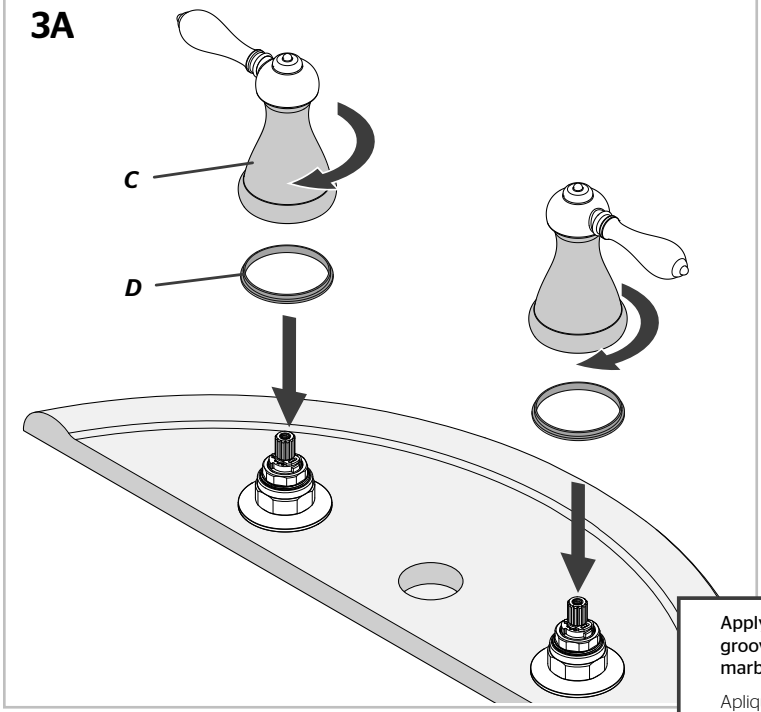
Instale las manijas y el surtidor

Installez las poignées et le bec

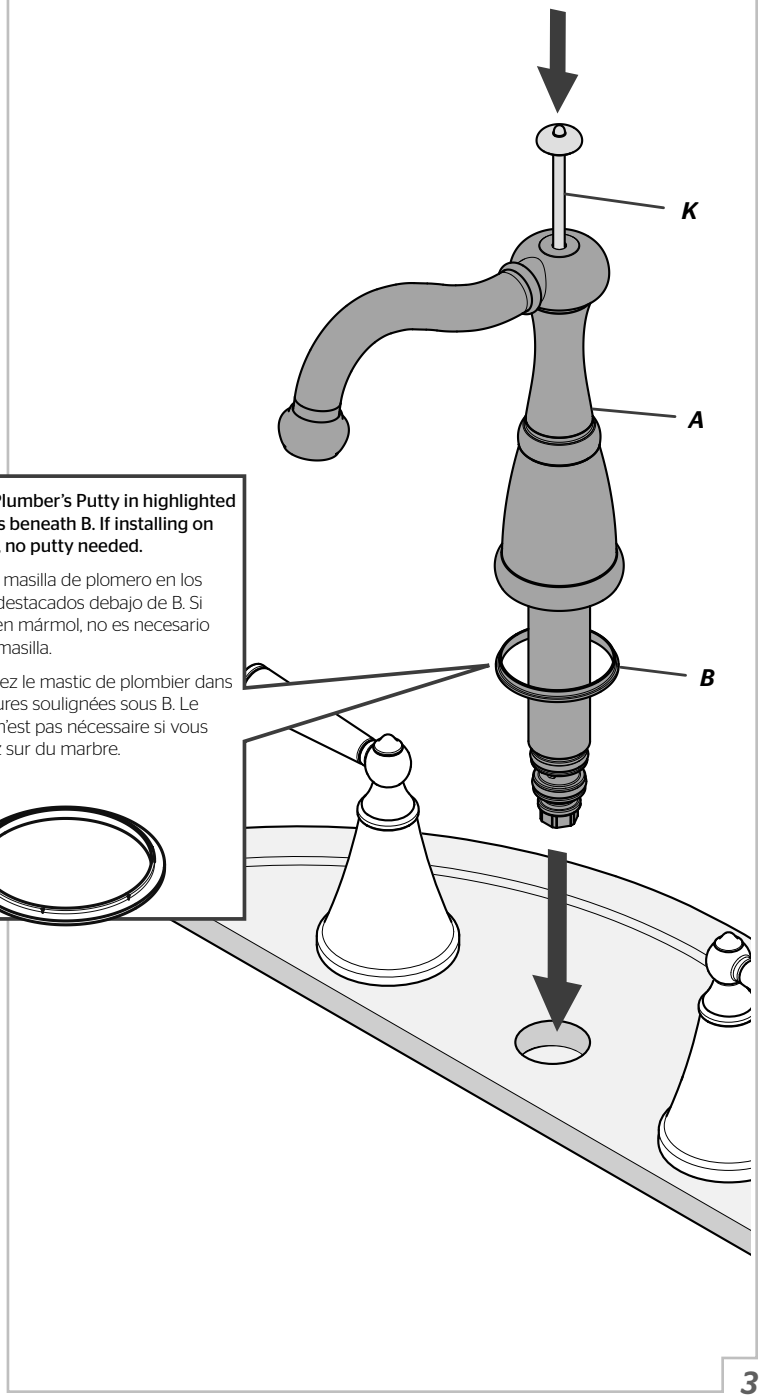




3A



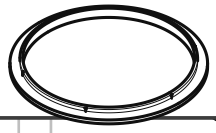
3B



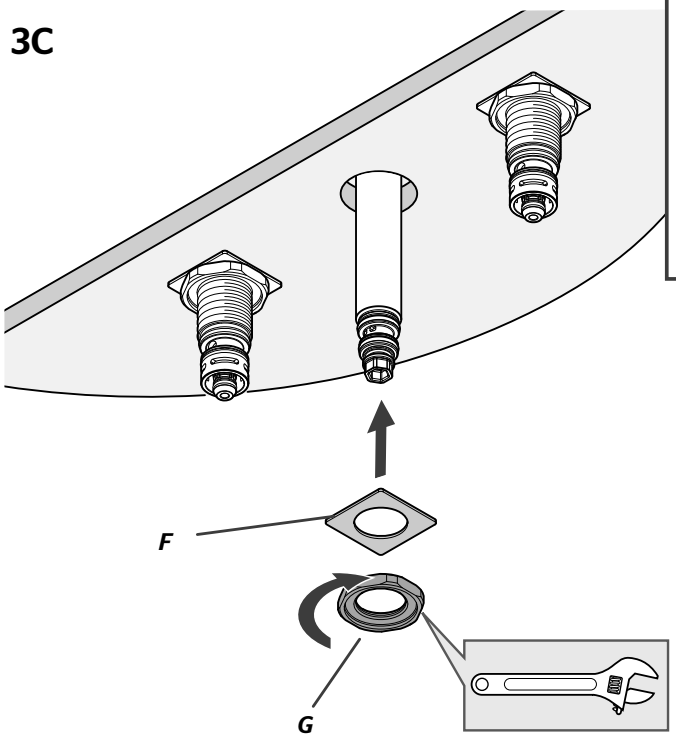
Apply Plumber's Putty in highlighted grooves beneath B. If installing on marble, no putty needed.

Aplique masilla de plomero en los surcos destacados debajo de B. Si instala en mármol, no es necesario aplicar masilla.

Appliquez le mastic de plombier dans les rainures soulignées sous B. Le mastic n'est pas nécessaire si vous installez sur du marbre.

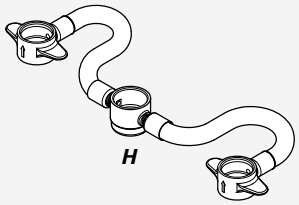


3C

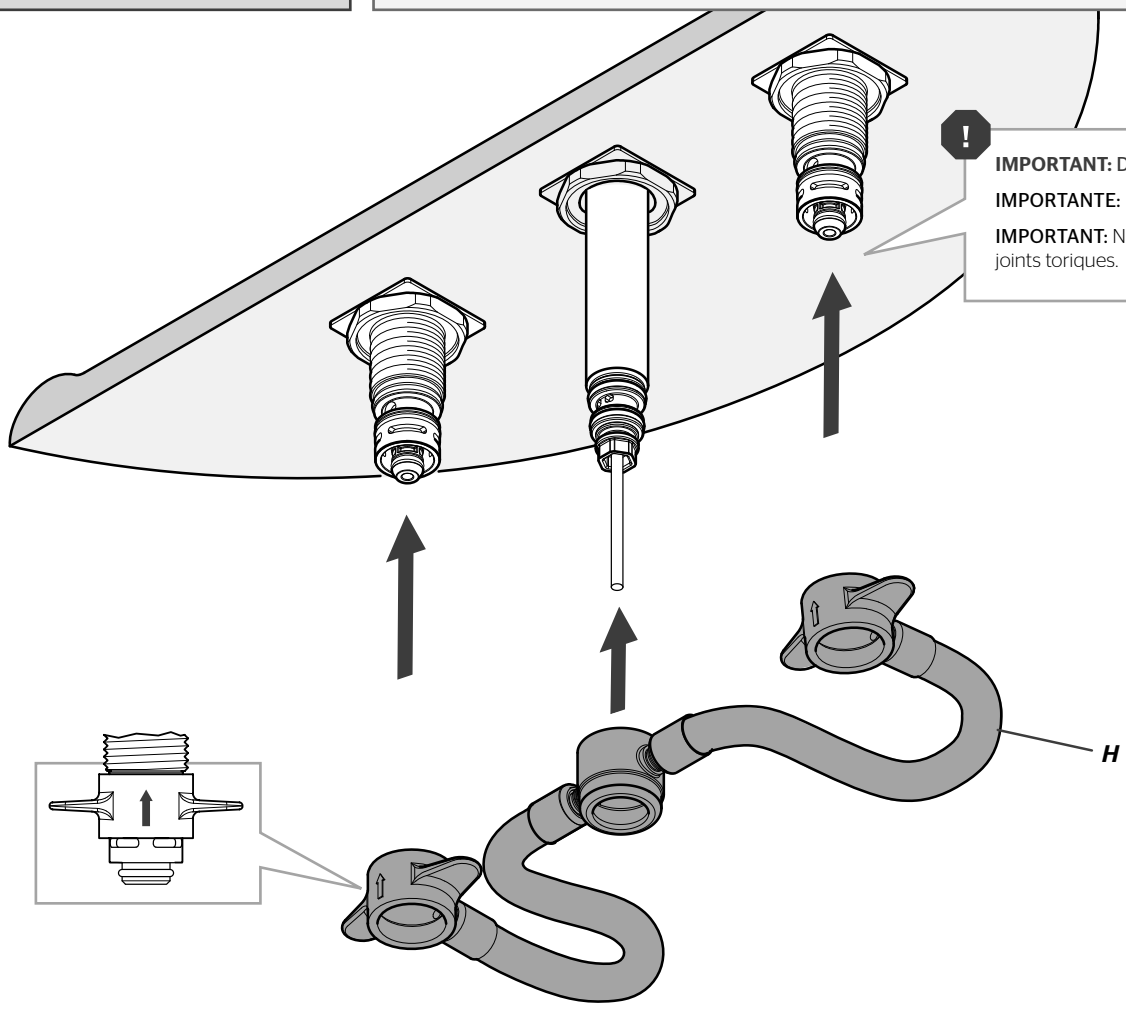


4 Install Hose
Instale la manguera
Posez le tuyau

No Tools Required for This Step
No se necesitan herramientas para este paso
Aucun outil n'est nécessaire pour cette étape



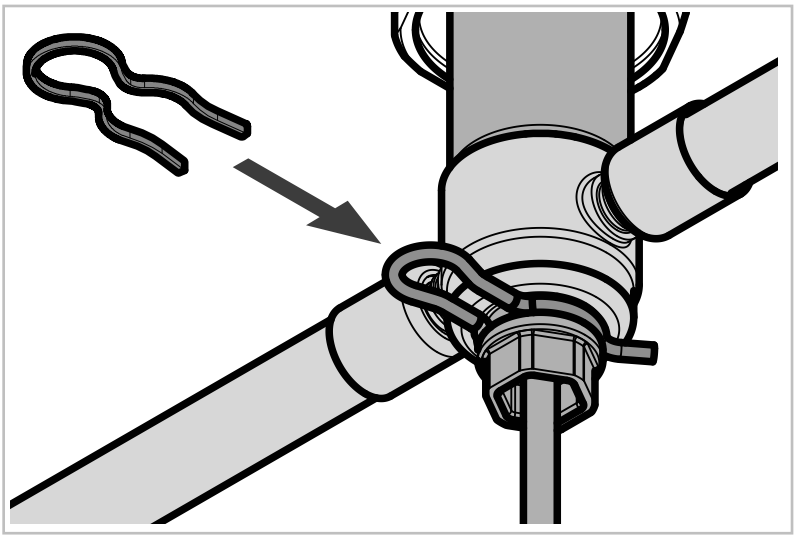
4A



IMPORTANT: DO NOT damage O-Rings.

IMPORTANTE: NO dañe las juntas tóricas.

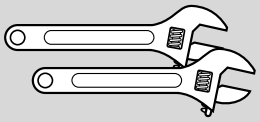
IMPORTANT: NE PAS endommager les joints toriques.



5 Connect Water Supply Lines

Conecte las tuberías de suministro de agua

Raccorder les conduites d'alimentation en eau



Adjustable Wrenches
Llaves ajustables
Clés à mollette

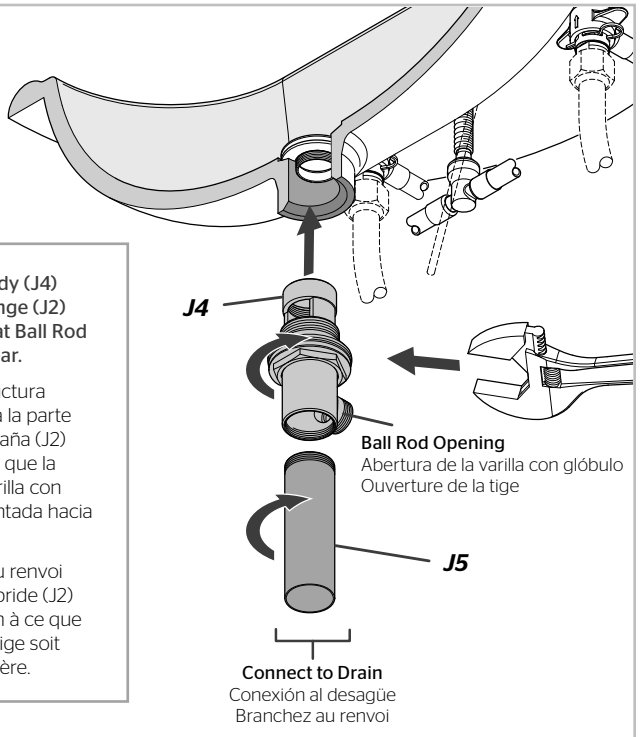
6C



Thread Drain Body (J4) to bottom of Flange (J2) and adjust so that Ball Rod opening faces rear.

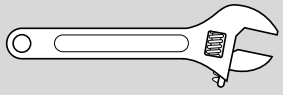
Enrosque la estructura de desagüe (J4) a la parte inferior de la pestaña (J2) y ajuste de modo que la abertura de la varilla con glóbulo esté orientada hacia la parte posterior.

Vissez le corps du renvoi (J4) au bas de la bride (J2) et réglez de façon à ce que l'ouverture de la tige soit tournée vers l'arrière.

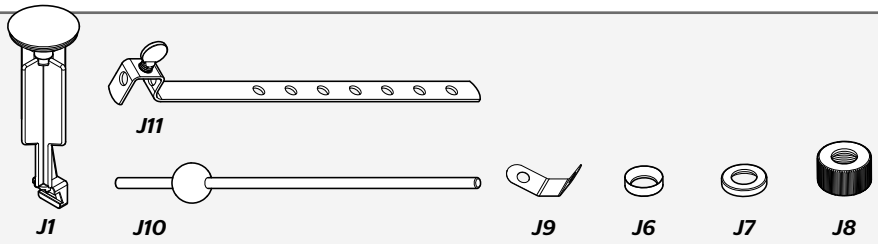
7 Prepare & Connect Lift Rod

Prepare y conecte la varilla de elevación

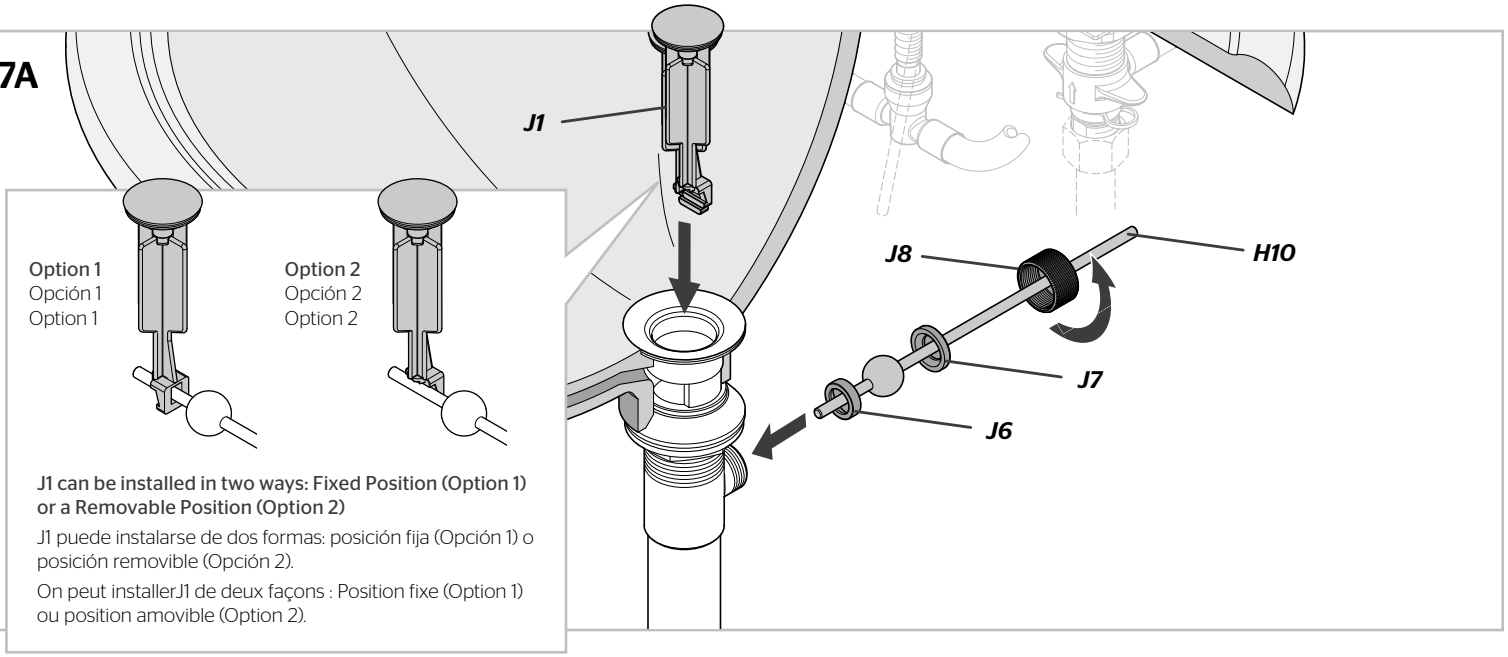
Préparez & connectez la tige levier



Adjustable Wrench
Llave ajustable
Clé réglable



7A



J1 can be installed in two ways: Fixed Position (Option 1) or a Removable Position (Option 2)

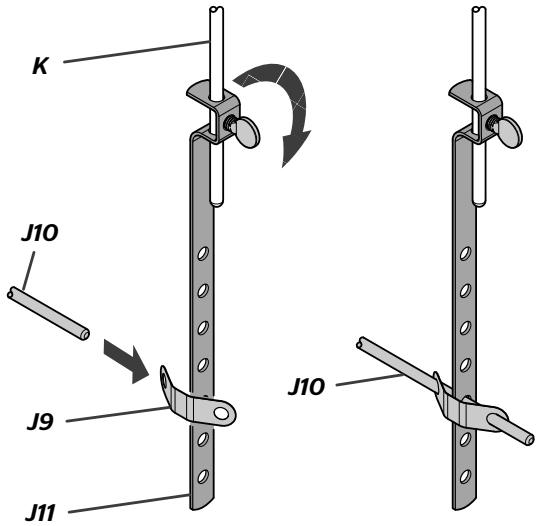
J1 puede instalarse de dos formas: posición fija (Opción 1) o posición removible (Opción 2).

On peut installerJ1 de deux façons : Position fixe (Option 1) ou position amovible (Option 2).

7B Assemble Lift Rod Connection

Ensamble de la conexión de varilla de elevación

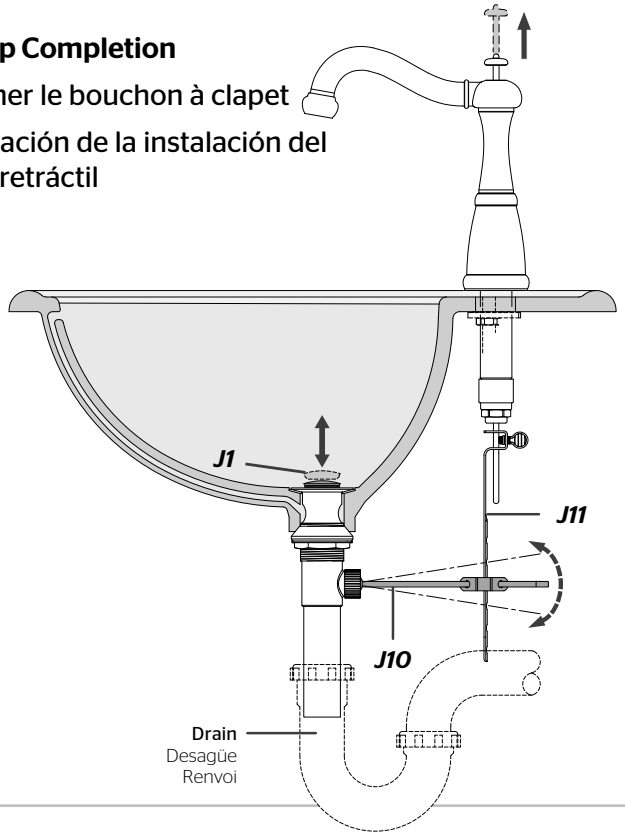
Assemblez la connexion de la tige levier



7C Pop-Up Completion

Terminer le bouchon à clapet

Finalización de la instalación del tapón retráctil

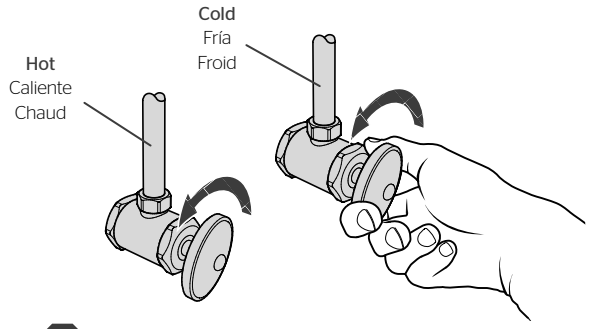


8 Turn On Water & Confirm Proper Installation

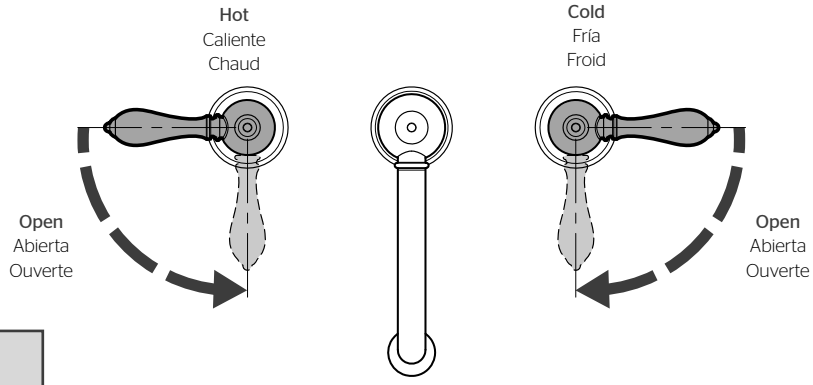
Active el suministro de agua y confirme que la instalación está adecuadamente efectuada

Ouvrez l'eau et confirmez que l'installation est adéquate

8A



Faucet Functions • Funciones del grifo • Fonctions du robinet



! Check for leaks above and below the sink.

Revise si hay fugas encima y debajo del fregadero

Assurez-vous qu'il n'y a pas de fuite au dessus ou au dessous du lavabo

9 Flush the Faucet

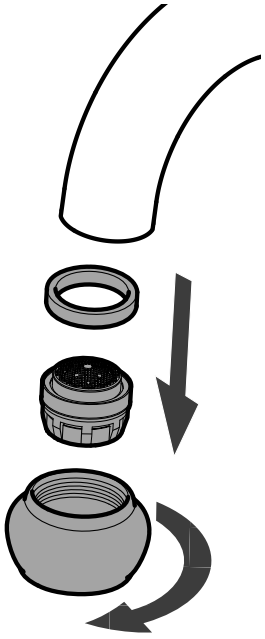
Enjuague el grifo

Vidanger l'robinet

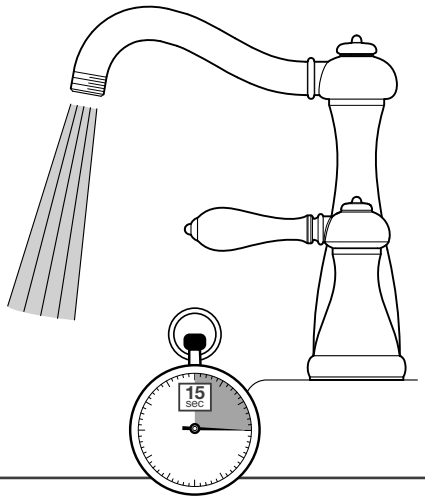
9A Remove Aerator

Retire el aereador

Retirez l'aérateur



9B



Allow full hot & full cold water to run for at least 15 seconds each.

Deje correr el agua caliente y fría durante al menos 15 segundos cada una.

Permettez à l'eau chaude et l'eau froide de couler au moins 15 secondes chacun.

9C Reinstall Aerator

Reinstale el aereador

Réinstallez l'aérateur
